You will find a version adapted to your needs and budget

Already more than 5000 customers from all continents trust IRIS Intelligent Document Recognition (IDR) software.

CAPTURE ANY DOCUMENT RIGHT INTO YOUR BUSINESS APPLICATION

Your company receives documents in multiple formats from a variety of channels. Most of them holds crucial business information which needs to be integrated into your company's systems in order to ensure business continuity and kick-start further document processes and workflows.

With IRIS Powerscan™ 10 you can rely on a document capture solution that goes the extra mile to not only extract the business-critical information you need, but also route documents and the data captured to your business applications.

- ✓ **Multi-channel capture & High-speed scanning** - Business critical information enter the business through a variety of channels such as mail, files, email attachments... IRIS Powerscan™ 10 offers a single solution to address all of them. It supports most popular scanners (Canon®, Kodak®, Fujitsu®, Hewlett Packard®, Panasonic® and Inotec® etc.) and interfaces (ISIS, Twain, VRS); documents can be captured via an MFD and imported automatically using IRIS Powerscan™'s watched folder feature; it can also import documents from Cloud services such as Box, Dropbox, Evernote, OneDrive, Google Drive or SharePoint.

Powerful image enhancement features help improve the quality of images by adjusting contrast and brightness, straightening skewed scans, removing unwanted pixels, splitting or merging images...

- ✓ **Advanced sorting** - IRIS Powerscan™ 10 uses a variety of techniques to perform automatic sorting of your incoming documents, such as barcodes, patch codes, OCR/ICR zones, keywords, color detection, regular expressions...

Step 1: Scan/Import	Step 2: Sorting	Step 3: Indexing	Step 4: Qual. Control & Verification	Step 5: Document Creation & Compression	Step 6: Export
Scanner MFP Files (pdf, jpg, tif...) Watched Folders Cloud	Contracts Mail Archives Applications etc.	Indexes Company Contract Nr. Signer Amount Indexes Name Date	 Data extracted is verified	PDF XML TXT DOC Compressed PDF Files	Your accounting system & ECM Field: Company Field: Contract # Field: Signer Field: Amount Your HR system & ECM Field: Name Field: Date
Scanning/ File Import & Pre-Processing	Documents are separated by type	Data extraction	Data extracted is verified	PDF, XPS, XML, TXT, DOCX, etc.	Both documents and indexes

IRIS Powerscan™ 10 also features a powerful layout recognition technology known as IRIS Fingerprint™. It learns the appearance of your various document types and performs identification without using text, labels, barcodes or any other conventional method.

- ✓ **High-accuracy indexing** - Now that documents have been identified, IRIS Powerscan™ 10 extracts the key information you need. A variety of recognition technologies are used to capture all types of indexes: OCR, ICR, barcodes, patch codes, and more. Invoice reading including line-item extraction is available through dedicated add-ons.
- ✓ **One-click verification** - IRIS Powerscan™ 10 uses powerful verification technologies to make sure the information captured on your input documents is 100% reliable before it is exported to your business application. The user interface includes easy-to-use tools and techniques to carry out the verification job quickly and efficiently: drag&drop OCR, keyboard shortcuts, auto-zooming...
- ✓ **Award-winning OCR and PDF Compression** - The latest IRIS-made OCR engine version is able to recognize text from 130+ languages. Once the full page has been recognized, the input document can be converted to a variety of formats including PDF, PDF/A, hyper-compressed PDF or PDF/A, XPS, RTF, XML, CSV, TIFF single or multi-page, BMP, JPEG, PNG, PDF image...
- ✓ **Export: a single, customizable connection platform** - IRIS Powerscan™ 10 routes documents and critical information to system folders, email, printers, IRIS Central-Management feature and any third-party application via the IRIS Connect™ Toolbox add-on. IRIS Connect™ dedicated connectors are also available for SharePoint, Therefore, FTP, ODBC, CMIS and cloud services like Box, Dropbox, Evernote, Google Drive and OneDrive.

FLEXIBLE ARCHITECTURE & INTUITIVE INTERFACE

To address your business needs and fit with your budget, IRIS Powerscan™ 10 comes in various versions. Whatever your configuration, IRIS Powerscan™ 10 always ensures a user-friendly approach:

- Minimal training time
- Intuitive interface
- Accessible file menu to create/open/save projects, modify general settings, interface language...

- Easy navigation mode to scan, visualize, modify and process documents efficiently
- Email notifications
